## Topics Discussed:

This week we made a demo presentation for the project we have developed. Everything is almost over, the last touches in the formal documentations need to be done and also we agreed to produce some more diagrams for our software. By the end of deadline the final document will need to be uploaded and the project will need to be set up in one of the laptops of the group members for the representation. Everything that hasn't been uploaded yet will need to be shown in GitHub. Personal wikis will need to be updated accordingly to the work done.

## Decisions Made:

- Upload all the diagrams on Github
- Upload the final draft of requirements on Github
- Update the wikis on Github.
