## Topics Discussed:

This week we discussed about the work done until now and what our next steps will be. We started drawing the first sketches that will be utilized later on by Xhoi to proceed with the design of the software. We also talked about starting to develop the user scenarios and use cases that we will need to provide in our requirements specification as well.

## Decisions Made:

- Until our next meeting we should have worked on sketches and possibly have an initial design for the system.
- The security module will start to be implemented by Arbi in the backend.
- User Scenarios should have been identified.

## Tasks Assigned:

Arbi will handle the security implementation in backend.  
Romeisa will work on sketches.  
Xhoi will work on the design from the sketches provided from Romeisa.  
Vanesa will work on User Scenarios.
