Other Members Present: Arb Koçi
                                  Romeisa Aliu
                                  Xhoi Muça

Members Absent: Fiorelo Hasanbega
                                  Pellumb Sina

Topics Discussed:

This week we discussed about our progress with the code implementation.
Provided that the technology we are using as a group is new to Romeisa and Vanesa, Arb explained and taught them how to create controllers, components, how to fetch and capture POST methods and how to set up the project.
Meanwhile, Arbi and Xhoi are already finishing up the Agent's user role dashboard in code. The next weeks focus will still continue to be the coding part, while we are working on different types of diagrams and completion of the Requirements document in a parallel way to this.

Decisions Made:

- Finish up Code implementation for all user roles.

Tasks Assigned:

- Arb and Xhoi will work together to deliver backend and frontend for the user roles of Admin and Agent.
- Romeisa and Vanesa will work together to deliver the backend and frontend for the user role of Courier by next week.
